ANALYTIC SUBJECT INDEX

PHYSICA B

Acoustic waves in metals
– Damping of — at low temperatures - Kailash and Kor 145B (1987) 209
Al (see *Acoustic waves in metals*) 145B (1987) 209
Al (see *Oscillator strengths*) 145B (1987) 5
AlAs (see *Oscillator strengths*) 145B (1987) 5
Amorphization (see *Ball-milling technique*) 145B (1987) 349
Ar (see *Liquids at high pressures*) 145B (1987) 50

Ball-milling technique
– The preparation of amorphous Ni–Zr alloys by different ball-milling techniques - Weeber et al. 145B (1987) 349
Band structure calculations
– Ab initio determinations of oscillator strengths of metals and semiconductors from ASW - Rompa et al. 145B (1987) 5

$Ca(OH)_2$ (see *Dynamic nuclear polarization*) 145B (1987) 153
$Ca(OH)_2$:O_2^- (see *Spin–lattice relaxation*) 145B (1987) 85
$Ca(OH)_2$:O_2^- (see *Spin–lattice relaxation*) 145B (1987) 101
$Ca(OH)_2$:O_2^- (see *Spin–lattice relaxation*) 145B (1987) 153
Charge-control model (see *Noise, 1/f*) 145B (1987) 190
Citrate synthesis (see *$YBa_2Cu_3O_{7-\delta}$*) 145B (1987) 222
Cu (see *Acoustic waves in metals*) 145B (1987) 209
Cu (see *Plasmon oscillations*) 145B (1987) 45
CuAuFe alloys
– Precision determination of the lattice parameters of — - Finkler et al. 145B (1987) 335

Defects, production rates (see *Si*) 145B (1987) 39
Diatomic molecules (see *Spin–lattice relaxation*) 145B (1987) 85
Diatomic molecules (see *Spin–lattice relaxation*) 145B (1987) 101
Diodes, long p^+–n (see *Noise, 1/f*) 145B (1987) 190
Dipoles, modulated lattices
– Electrostatic energy of modulated dipole lattices - Massidda 145B (1987) 124
DLTS (see *Fe_{Ga} double acceptor*) 145B (1987) 267
Dynamic nuclear polarization
– — and spin–lattice relaxation of the proton spins in $Ca(OH)_2$ - Van der Zon et al. 145B (1987) 153

Electron spin relaxation
– A theory of the — from hindered rotations in paramagnetic crystals - Zimpel 145B (1987) 311
Electron spin resonance (see *$YBa_2Cu_3O_{7-\delta}$*) 145B (1987) 222

Electrostatic energy (see *Dipoles, modulated lattices*) 145B (1987) 124
Equation of state (see *Liquids at high pressures*) 145B (1987) 50
$Er_{0.5}Ho_{0.5}Rh_4B_4$ (see *Magnetic superconducting films*) 145B (1987) 342
Erratum
– — to Physica 144B (1987) 320, Thermodynamic properties of molten nitrates under pressure obtained from velocity of sound - Petitet et al. 145B (1987) 365
$ErRh_4B_4$ (see *Magnetic superconducting films*) 145B (1987) 342
$Er_xY_{1-x}Rh_{1.1}Sr_{3.6}$ (see *Ternary compounds, mixed*) 145B (1987) 215

Fe_{Ga} *double acceptor*
– Investigation of the double acceptor Fe_{Ga} in GaP and $GaAs_{0.1}P_{0.9}$ by DLTS - Brehme and Pickenhain 145B (1987) 267
FeV alloys (see *Oxidation, internal*) 145B (1987) 165

$GaAs_{0.1}P_{0.9}$ (see Fe_{Ga} *double acceptor*) 145B (1987) 267
GaAs (see *Oscillator strengths*) 145B (1987) 5
$GaAs/Ga_{1-x}Al_xAs$ (see *Ionic superlattices*) 145B (1987) 111
GaP (see Fe_{Ga} *double acceptor*) 145B (1987) 267
$GdBa_2Cu_3O_7$ (see *Superconductivity, high-T_c*) 145B (1987) 260
$GdCo_{14}B$ (see *Mössbauer effect, ^{155}Gd*) 145B (1987) 329
Grüneisen parameter (see *Superconductivity, high-T_c*) 145B (1987) 253

Hall effect (see *Rare earth / transition metal alloys*) 145B (1987) 148
He II
– On various processes of redistribution of superfluid turbulence in capillary flow of helium II - Marees and Van Beelen 145B (1987) 21
High pressure (see *Hydrogen-bonded crystals*) 145B (1987) 320
Hindered rotations (see *Electron spin relaxation*) 145B (1987) 311
Hydrodynamics of superfluid He II
– On various processes of redistribution of superfluid turbulence in capillary flow of helium II - Marees and Van Beelen 145B (1987) 21
Hydrogen-bonded crystals
– Isotope effect on high-pressure behavior of — - Maćkowiak 145B (1987) 320
Hydrogen diffusion
– Diffusion and tunnelling of hydrogen in vanadium, niobium and tantalum - Svare 145B (1987) 281
– Tunnelling of hydrogen in metals - Svare 145B (1987) 293

Incommensurate phases (see *Spin-Peierls transition*) 145B (1987) 299
Intersubband resonance
– Calculation of — in an inversion layer on p-type Si(100) induced by a grating coupler - Tsay and Wang 145B (1987) 29
Inversion layer (see *Subband absorption*) 145B (1987) 29
Ionic superlattices
– Raman scattering by longitudinal modes in — - Babiker 145B (1987) 111
Iron clusters (see *CuAuFe alloys*) 145B (1987) 335
Irradiated silicon (see *Si*) 145B (1987) 39
Isotope effect (see *Hydrogen-bonded crystals*) 145B (1987) 320

Josephson junctions
– Theoretical investigations on series connections of — - Mikolajczak et al. 145B (1987) 131

KMF_3(M = Mn,Co,Ni) (see *Superexchange interaction*) 145B (1987) 171
Kr (see *Liquids at high pressures*) 145B (1987) 50

Lattice parameters (see *CuAuFe alloys*) 145B (1987) 335
Light scattering
– The effect of photoactive light on — in $SrTiO_3$ - Lebedeva et al. 145B (1987) 205
LiMg alloy
– Thermodynamic properties of molten — - Singh et al. 145B (1987) 358
Lineshape (see *X-ray diffraction*) 145B (1987) 335
Liquid alloy (see *LiMg alloy*) 145B (1987) 358
Liquid crystal (see *Sine-Gordon equation*) 145B (1987) 353
Liquids at high pressures
– Behaviour of the equation of state of simple — - Solana et al. 145B (1987) 50
Longitudinal polar optical modes (see *Ionic superlattices*) 145B (1987) 111

Madelung potential (see *Superexchange interaction*) 145B (1987) 171
Magnetic interaction (see *Superexchange interaction*) 145B (1987) 171
Magnetic ordering (see *Dynamic nuclear polarization*) 145B (1987) 153
Magnetic superconducting films
– Electromagnetic properties of ferromagnetic superconducting films - Mancini and Noce 145B (1987) 342
Magnetic superconductors
– Coexistence of magnetism and high-T_c superconductivity in $GdBa_2Cu_3O_7$ - Kadowaki et al. 145B (1987) 260
Magnetic superconductors (see *Ternary compounds, mixed*) 145B (1987) 215
Magnetic susceptibility (see *$N(CH_3)_4NiBr_3$*) 145B (1987) 16
Magnetization (see *Spin-Peierls transition*) 145B (1987) 299
Magneto-optic properties (see *Rare earth / transition metal alloys*) 145B (1987) 148
Metal–insulator–semiconductor system (see *Subband absorption*) 145B (1987) 29
Metals (see *Acoustic waves in metals*) 145B (1987) 209
Metals (see *Hydrogen diffusion*) 145B (1987) 293
Metals (see *Oscillator strengths*) 145B (1987) 5
Microwave-induced characteristics (see *SQUIDs*) 145B (1987) 137
Mössbauer effect, ^{155}Gd
– ^{155}Gd Mössbauer effect in $Gd_2Co_{14}B$ - Smit et al. 145B (1987) 329
Mössbauer spectroscopy (see *Oxidation, internal*) 145B (1987) 165

Na (see *Plasmon oscillations*) 145B (1987) 45
$NaNO_2$ (see *Dipoles, modulated lattices*) 145B (1987) 124
$N(CH_3)_4NiBr_3$
– Phase boundary of metamagnetic $[N(CH_3)_4]NiBr_3$ (TMNB) - Paduan-Filho and Carlin 145B (1987) 16
Ni (see *Acoustic waves in metals*) 145B (1987) 209
Ni–Zr alloy
– The preparation of amorphous Ni–Zr alloys by different ball-milling techniques - Weeber et al. 145B (1987) 349
Niobium (see *Hydrogen diffusion*) 145B (1987) 281
Noise, 1/f
– On $1/f$ noise in collector current of bipolar transistors - Kiss and Kleinpenning 145B (1987) 181

– Charge-control model applied to $1/f$ noise in long p^+–n diodes - Kleinpenning 145B (1987) 190
– Partition $1/f$ noise in pentodes and its quantum interpretation - Van der Ziel et al. 145B (1987) 195
Noise, 1/f, Hooge's formula
– Interpretation of Hooge's $1/f$ noise formula - Kiss and Kleinpenning 145B (1987) 185

Oscillator strengths
– Ab initio determinations of — of metals and semiconductors from ASW - Rompa et al. 145B (1987) 5
Oxidation, internal
– An internal oxidation effect in FeV alloys - Silva et al. 145B (1987) 165

Paramagnetic crystals (see *Electron spin relaxation*) 145B (1987) 311
Pb (see *Acoustic waves in metals*) 145B (1987) 209
Pentodes (see *Noise, 1/f*) 145B (1987) 195
Phase diagram (see $N(CH_3)_4NiBr_3$) 145B (1987) 16
Photoactive light (see *Light scattering*) 145B (1987) 205
Plasmon oscillations
– Double — during X-ray emission - Harsh and Agarwal 145B (1987) 45

Quasi one-dimensional solids (see *Spin-Peierls transition*) 145B (1987) 299

Radiation damage (see *Si*) 145B (1987) 39
Raman process (see *Spin–lattice relaxation*) 145B (1987) 85
Raman process (see *Spin–lattice relaxation*) 145B (1987) 101
Raman scattering (see *Ionic superlattices*) 145B (1987) 111
Random walk (see *Electron spin relaxation*) 145B (1987) 311
Rare earth elements (see *Magnetic superconducting films*) 145B (1987) 342
Rare earth elements (see *Magnetic superconductors*) 145B (1987) 260
Rare earth elements (see *Mössbauer effect, ^{155}Gd*) 145B (1987) 329
Rare earth elements (see *Ternary compounds, mixed*) 145B (1987) 215
Rare earth / transition metal alloys
– Composition dependence of the extraordinary Hall effect in amorphous Tb_xFe_{1-x} - van Dover and Menghisteab 145B (1987) 148
Relaxation matrix (see *Electron spin relaxation*) 145B (1987) 311
Rhodium stannides (see *Ternary compounds, mixed*) 145B (1987) 215

Schottky barrier capacitance (see *Si*) 145B (1987) 39
Semiconductors (see *Fe_{Ga} double acceptor*) 145B (1987) 267
Semiconductors (see *Oscillator strengths*) 145B (1987) 5
Si
– Low temperature radiation damage in silicon. II. Production rates and annealing studies on p-type material - Awadelkarim 145B (1987) 39
Si (see *Subband absorption*) 145B (1987) 29
Sine-Gordon equation
– On one physical solution of the — - Kamensky and Kudriasheva 145B (1987) 353
Soliton solution (see *Sine-Gordon equation*) 145B (1987) 353
Soliton solution (see *Spin-Peierls transition*) 145B (1987) 299
Specific heat (see *Spin-Peierls transition*) 145B (1987) 299

Spin echo (see *Oxidation, internal*) 145B (1987) 165
Spin–lattice relaxation
– The Raman electron — process for diatomic molecules. I. Theory for $Ca(OH)_2:O_2^-$ - Van Velzen and Wenckebach 145B (1987) 85
– The Raman electron — process for diatomic molecules. II. Experiments in $Ca(OH)_2:O_2^-$ - Van Velzen et al. 145B (1987) 101
– Dynamic nuclear polarization and — of the proton spins in $Ca(OH)_2$ - Van der Zon et al. 145B (1987) 153
Spin-Peierls transition
– The intermediate state of the spin-Peierls system TTF–AuBDT: a magnetic and specific heat study - Korving et al. 145B (1987) 299
SQUIDs
– Microwave-induced steps in the current–voltage characteristic of dc squids - Meyer et al. 145B (1987) 137
$SrTiO_3$
– The effect of photoactive light on light scattering in — - Lebedeva et al. 145B (1987) 205
Stewart–McCumber model (see *Josephson junctions*) 145B (1987) 131
Stewart–McCumber model (see *SQUIDs*) 145B (1987) 137
Subband absorption
– Calculation of intersubband resonance in an inversion layer on p-type Si(100) induced by a grating coupler - Tsay and Wang 145B (1987) 29
Superconductivity
– — and magnetic ordering in the mixed ternary $Er_xY_{1-x}Rh_{1.1}Sn_{3.6}$ system - Houwman et al. 145B (1987) 215
– Electromagnetic properties of ferromagnetic superconducting films - Mancini and Noce 145B (1987) 342
Superconductivity, high-T_c
– Superconductivity at 95 K in the single-phase $YBa_2Cu_3O_{9-y}$ system - Kadowaki et al. 145B (1987) 1
– X-ray and electron spin resonance on $YBa_2Cu_3O_{7-\delta}$ prepared by citrate synthesis (*Letter to the editor*) - Blank et al. 145B (1987) 222
– Thermal expansion, compressibility and Grüneisen parameter of $YBa_2Cu_3O_x$ - Salomons et al. 145B (1987) 253
– Coexistence of magnetism and high-T_c superconductivity in $GdBa_2Cu_3O_7$ - Kadowaki et al. 145B (1987) 260
Superexchange interaction
– Influence of Madelung correction on the — - Fuchikami 145B (1987) 171
Superfluid turbulence (see *He II*) 145B (1987) 21

Tantalum (see *Hydrogen diffusion*) 145B (1987) 281
Tb_xFe_{1-x} (see *Rare earth / transition metal alloys*) 145B (1987) 148
Ternary compounds, mixed
– Superconductivity and magnetic ordering in the mixed ternary $Er_xY_{1-x}Rh_{1.1}Sn_{3.6}$ system - Houwman et al. 145B (1987) 215
Ternary compounds, rare earth (see *Magnetic superconducting films*) 145B (1987) 342
Ternary compounds (see *Mössbauer effect, ^{155}Gd*) 145B (1987) 329
Thermodynamic properties (see *LiMg alloy*) 145B (1987) 358
TMNB (see *$N(CH_3)_4NiBr_3$*) 145B (1987) 16

Transistors, bipolar (see *Noise, 1/f*) 145B (1987) 181
Transition temperature (see *Superconductivity, high-T_c*) 145B (1987) 1
TTF–AuBDT (see *Spin-Peierls transition*) 145B (1987) 299
Tunnelling (see *Hydrogen diffusion*) 145B (1987) 281
Tunnelling (see *Hydrogen diffusion*) 145B (1987) 293
Turbulent flow of He II
– On various processes of redistribution of superfluid turbulence in capillary flow of helium II - Marees and van Beelen 145B (1987) 21

Vanadium (see *Hydrogen diffusion*) 145B (1987) 281

X-ray diffraction
– Precision determination of the lattice parameters of CuAuFe alloys - Finkler et al. 145B (1987) 335
X-ray diffraction (see *$YBa_2Cu_3O_{7-\delta}$*) 145B (1987) 222
X-ray emission (see *Plasmon oscillations*) 145B (1987) 45
Xe (see *Liquids at high pressures*) 145B (1987) 50

Y–Ba–Cu–O system (see *Superconductivity, high-T_c*) 145B (1987) 1
$YBa_2Cu_3O_{7-\delta}$
– X-ray and electron spin resonance on — prepared by citrate synthesis (*Letter to the editor*) - Blank et al. 145B (1987) 222
$YBa_2Cu_3O_x$ (see *Superconductivity, high-T_c*) 145B (1987) 253

PHYSICA C

Atomic spectra (see *Gallium*) 145C (1987) 236
Atomic spectra (see *Moment-generated spectra*) 145C (1987) 241

Binary diffusion coefficients (see *N_2*–heavy noble gas mixtures) 145C (1987) 78
Binary diffusion coefficients (see *N_2*–light noble gas mixtures) 145C (1987) 69
Bremsstrahlung, atomic field
– Atomic-field bremsstrahlung from hydrogen, helium, nitrogen and neon from 5 to 15 keV - Estep and Quarles 145C (1987) 369

Diffusion (see *N_2*–heavy noble gas mixtures) 145C (1987) 78
Diffusion (see *N_2*–light noble gas mixtures) 145C (1987) 69

Excited parabolic states (see *Hydrogen*) 145C (1987) 229

Fermi Golden Rule (see *Multiphoton ionization*) 145C (1987) 59

Gallium
– Investigation of the $4s4p^2$ configuration in — - Buurman et al. 145C (1987) 236

Helium (see *Bremsstrahlung, atomic field*) 145C (1987) 369
Hydrogen
– The Stark effect in hydrogen: properties of threshold resonances in the photoionization spectrum of excited parabolic states - Hillard and Glab 145C (1987) 229
Hydrogen (see *Bremsstrahlung, atomic field*) 145C (1987) 369

Ionization, strong-field (see *Multiphoton ionization*) 145C (1987) 59

L-shell X-ray production (see *Yb*) 145C (1987) 249
Loaded sphere model (see N_2–heavy noble gas mixtures) 145C (1987) 78

Moment-generated spectra
– On — of atoms - Bancewicz and Karwowski 145C (1987) 241
Multiphoton ionization
– Power-dependence of strong-field ionization in an N-level system coupled to a continuum - Deng 145C (1987) 59

N_2–heavy noble gas mixtures
– Diffusion in Lorentzian and quasi-Lorentzian — - Wahby 145C (1987) 78
N_2–light noble gas mixtures
– Diffusion in Lorentzian and quasi-Lorentzian — - Wahby and Los 145C (1987) 69
Neon (see *Bremsstrahlung, atomic field*) 145C (1987) 369
Nitrogen (see *Bremsstrahlung, atomic field*) 145C (1987) 369
Non-Kerr media (see *Nonlinear TM-polarized waves*) 145C (1987) 377
Nonlinear TM-polarized waves
– — in non-Kerr media - Langbein et al. 145C (1987) 377

Photoionization (see *Hydrogen*) 145C (1987) 229
Proton-induced ionization (see *Yb*) 145C (1987) 249

Rabi frequencies (see *Multiphoton ionization*) 145C (1987) 59

Stark effect (see *Hydrogen*) 145C (1987) 229
Statistical spectroscopy (see *Moment-generated spectra*) 145C (1987) 241

Yb
– Measurement of L-shell X-ray production cross-sections of — bombarded by 250–400 keV protons - Mohan et al. 145C (1987) 249
